

DOCTOR

SIERRA LEONE

Based in Mokanji, MissionGO serves the community with a medical clinic, a clean water program, informal theological training, and a program for girls at-risk. With a furnished guest house, this is an amazing opportunity of service just a couple flights away.

REPUBLIC of CONGO

A nomadic people group is renowned for their ability to thrive in the jungle, yet their community has a very high rate of leprosy. The Kimia Leprosy Center provides accommodation for patients as they undergo initial treatment while sharing the Good News of Jesus. The longer-term plan is to have them reintegrate into their communities while being monitored by trained health personnel. We are in need of medical professionals who can respond to patients brought in by our medical team and work alongside them to provide initial and ongoing treatment for those who come for care.

We have additional opportunities in Guatemala and Costa Rica. Check out our website to learn more.
