

## Serving with MissionGO

“The purpose of Global Health Services, a division of MissionGO, is to engage in genuine, holistic ministry. We believe that God’s work, to which we are called, should be directed toward both the spiritual and the physical needs of people. Just as there is no compartmentalization between an individual’s spiritual, mental, social, and physical aspects, there is no dichotomy between the spiritual and physical ministries within the worldview of Global Health Services. Those whom God leads to join this ministry should be totally committed to people’s spiritual needs—as well as have a profound concern for mental, social, and physical needs.”

Dennis Campbell  
President, CEO  
MissionGO

# Ways to Serve

## AFRICA:

### Sierra Leone

Serve in Mokanji at MissionGO's medical clinic! Nurses, doctors, midwives, surgeons, and eye care professionals are all needed to treat both common and more complicated ailments such as malaria, infections, malnutrition, pregnancies, polio, etc. at the clinic and throughout surrounding villages.

### Republic of Congo

Make a difference at the Kimia Leprosy Center! A certain nomadic people group is renowned for their ability to thrive in the jungle, yet their community has a very high rate of leprosy. The Kimia Leprosy Center provides accommodation for patients as they undergo initial treatment while sharing the Good News of Jesus. The longer-term plan is to have them reintegrate into their communities while being monitored by trained health personnel. We are in need of medical professionals who can respond to patients brought in by our medical team and work alongside them to provide initial and ongoing treatment for those who come for care.

## CENTRAL AMERICA:

### Costa Rica

MissionGO has a ministry situated in the beautiful Orosi Valley. Our facilities house short-term medical and evangelistic teams of 10-15 people for 2-3 weeks. We have a need for a nurse or physician assistant year-round.

### Guatemala

Share the hope of God, our Healer, while tending to the medical needs of those in remote communities in Guatemala! Medical professionals are encouraged to set up or participate in clinics to treat individuals with little to no access to quality medical care. Other opportunities include serving at children's homes for young people with special needs and participating in medical home visits.

## ENTREPRENEUR:

Every ministry needs a pioneering founder. Is God calling you to start a new medical work or to lead a short-term medical team? MissionGO is located in over 55 countries. Call our office to explore further opportunities.
