

SURGEON

SIERRA LEONE

Based in Mokanji, MissionGO serves the community with a medical clinic, a clean water program, informal theological training, and a program for girls at-risk. With a furnished guest house, this is an amazing opportunity of service just a couple flights away.

REPUBLIC of CONGO

Make a difference at the Kimia Leprosy Center! A nomadic people group is renowned for their ability to thrive in the jungle, yet their community has a very high rate of leprosy. The Kimia Leprosy Center provides accommodation for patients as they undergo initial treatment while sharing the Good News of Jesus. We are in need of medical professionals who can respond to patients brought in by our medical team and work alongside them to provide initial and ongoing treatment for those who come for care.

GUATEMALA

Share the hope of God, our Healer, while tending to the medical needs of those in remote communities in Guatemala! Medical professionals are encouraged to set up or participate in clinics to treat individuals with little to no access to quality medical care. Other opportunities include serving at children's homes for young people with special needs and participating in medical home visits.

COSTA RICA

MissionGO has a ministry situated in the beautiful Orosi Valley. Our facilities house short-term medical and evangelistic teams of 10-15 people for 2-3 weeks. We have a need for a nurse or physician assistant year-round.
