

MEDICAL

REPUBLIC of CONGO

Make a difference at the Kimia Leprosy Center! The Aka pygmies are renowned for their ability to thrive in the jungle, yet their community has a very high rate of leprosy. The Kimia Leprosy Center provides accommodation for patients as they undergo initial treatment, while also sharing the Good News of Jesus. The longer-term plan is to have them reintegrate into their communities while being monitored by trained health personnel. We are in need of Medical Professionals who can work with our mobile team to screen for new patients and our Center team to provide initial and ongoing treatment for those who come for care.

SIERRA LEONE

Based in Mokbanji, MissionGO serves the community with a medical clinic, a clean water program, informal theological training, and a program for girls at-risk. With a furnished guest house, this is an amazing opportunity of service just a few flights away. Inquire about how you can help.

COSTA RICA

Serving the central Orosi Valley, MissionGO hosts regular short-term teams with medical outreach as one of its areas of emphasis.
