

MIDWIFE

OVERVIEW

MissionGO seeks to mobilize women who sense God's calling to missionary midwife service. Missionary midwives play a vital role in reducing maternal and newborn fatality as they impact families and communities with the Good News of Jesus Christ. MissionGO works with interested and qualified candidates to raise the necessary financial support (once a training program is chosen) and acquire experience in a clinic setting once pursuing Certification and Licensure. To find out more, visit www.missiongo.org/midwife.

SIERRA LEONE

Based in Mekanji, MissionGO serves the community with a medical clinic, a clean water program, informal theological training, and a program for girls at-risk. With a furnished guest house, this is an amazing opportunity of service just a couple flights away. Inquire about how you can help!

GUATEMALA

Guatemala has one of the highest maternal and infant death rates in Central America. Centro de Partos el Pozo (the clinic) manages prenatal care appointments, labor and delivery, and postpartum care for women from remote communities where there is little access to safe and professional medical services.
