

CHIROPRACTORS WANTED

Global Health Services is a holistic ministry dedicated to making Christ known through the provision of dental and chiropractic needs for the underserved in Belize.

Although not well understood in Belize, chiropractic care can provide immediate pain relief and longer term health vitality. Within the clinic there is a dedicated office for chiropractic adjustments. Outside the clinic, numerous churches and organizations are interested in partnering for holistic outreach.

DENTAL MISSIONS

MISSION:

To make Christ known by serving the dental and chiropractic needs of the underserved in Belize.

Nestled beside the Caribbean Sea, Belize seems idyllic. Yet due to lack of economic opportunity, its hard-working population are kept from thriving. Remote villages have very limited access to consistent and quality dental care. With an average family income of \$5,000 per year, Belizeans are in need of quality, affordable dental and chiropractic care. **That's why Global Outreach Mission started the Global Health Services Clinic in Independence.**

As the only dental clinic within a 60-mile radius, it is unique in that it is open year-round, with an affordable fee schedule. It is equipped with five dental chairs, making it large enough to handle entire families and groups of villagers who can be bused in for care. GHSDC will also serve as a home base for dental and chiropractic teams to reach out to schools and villages.

OPPORTUNITY

On October 5, 2015 the doors were opened and the Global Health Services Clinic started to serve the dental needs of the region. Within a short period of time, word of mouth had spread that the clinic was open.

Committed to holistic ministry, clients of the clinic are served by dedicated followers of Christ who seek both the physical and spiritual wellbeing of those they come in contact.

Fully equipped with a dental lab, in-clinic accessories and mobile units, the dental ministry seeks to serve those who come through its doors and those in villages who cannot visit the clinic.

SERVE IN BELIZE

Short Term Dental

Global Health Services welcomes dentists, dental assistants and dental hygienists to voluntarily serve with us. Whether you come on your own, with a friend or with a team, GHSDC can accommodate your willingness to serve. Although many people choose to volunteer for one week, there would be opportunity for those who wish to serve for two weeks, two months or more.

Long Term Dental

Could God be calling you to serve long term in Belize with Global Health Services? Long term workers are needed as dentists and dental hygienists to serve in the clinic and village-based dental outreach.

Dentist, **Dr. David Ugai**
