

## Ministry House Project for Dukens and Lenie

### Description of the Project

As missionaries, we are seeking to build a ministry house that will provide a safer and more stable environment for effective service, as the area where we currently live has become increasingly challenging and frustrating.

The estimated cost for the first level of the project is \$85,000.00

### Immediate Benefits of the Project

This project will allow us to expand discipleship by:

- hosting students more frequently on weekends
- welcoming interns and students to live with us during the summer
- offering practical programs such as cooking classes for young girls in the community

### Long-term Benefits of the Project

Beyond meeting immediate needs, the ministry house will become a strategic center for:

- mentoring future leaders
- counseling youth
- strengthening families
- extending hospitality
- hosting short-term missionaries, leaders transiting through the capital
- creating a lasting investment in God's work among the people we serve

### What have we already done?

About 35% of the project is already complete, given the difficulties of purchasing land in Haiti.

- The land is purchased
- The land is prepared (it was sloppy)
  - o See phase 1: <https://youtu.be/cCDjKmXzDNI>
  - o See phase 2: [https://www.youtube.com/watch?v=0EVC\\_ObVqYk](https://www.youtube.com/watch?v=0EVC_ObVqYk)

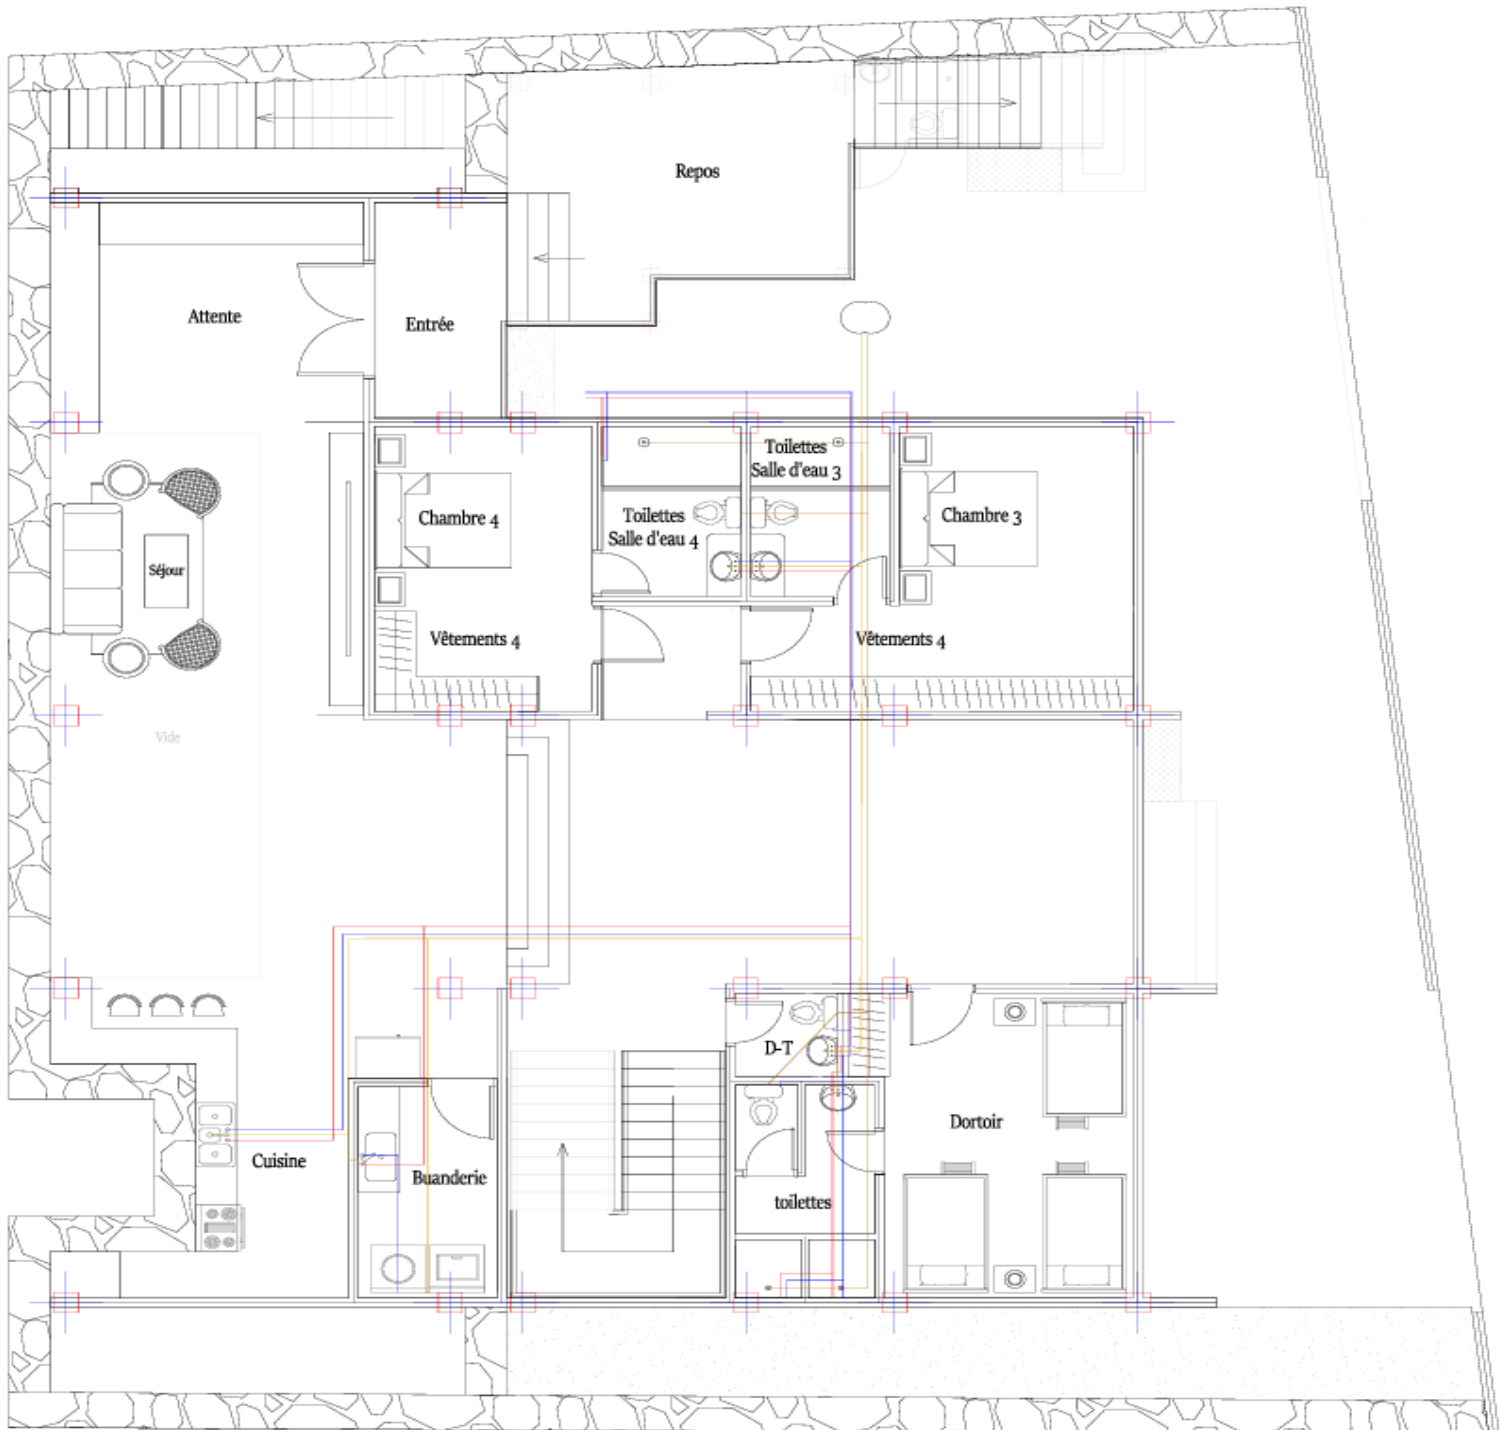

### Is the area safe?

Nowhere is safe in this fallen world. However, special decisions have been made to secure the area.

- It is under surveillance 24/7
- The national police chief lives less than a 7-minute walk from the land
- Many embassies and ambassadors live on that side of the capital (Spain, Japan, Germany, Brazil, Switzerland, etc.)
- The chief of the UN in Haiti lives on the same side of Petion-Ville

- The Evacuation sites for all the embassies are not far from the area, along with some international institutions such as UNESCO and the European Union

All this is to say that people in that area are less likely to be victims of gang activities. While we were looking for the land elsewhere, God led us to where we are now.

## Testimony

Where we live has always been a space where we organize small group Bible studies, cooking classes, and spend time with students, etc. We have some photos of these different activities.

### Spending time with students at home on weekends

### Discipleship class

## Christmas Party for disciples and children in our community

The setting is being prepared. We also organized a Bible competition.

### Cooking class

Small group Bible Study
